United for a Sustainable Future National Forum for Environment and Health

n the eve of World Environment Day, June 5, 1999, a dedicated group of professionals, environmentalists, academicians, industrialists, youth, and community workers came together to form the National Forum for Environment and Health (NFEH). United by a shared commitment to protecting the environment and mitigating climate change, they volunteer their time and expertise to maximize resources and reduce emerging hazards.

NFEH is proud to be affiliated with the United Nations Environment Programme (UNEP) and enjoys support from key government ministries and organizations, including the Ministry of Climate Change, Government of Pakistan, Ministry of Environment, Climate Change & Coastal Development, Government of Sindh, EPA Sindh, and the Federation of Pakistan Chambers of Commerce & Industry (FPCCI).

As a pioneer in adopting the Sustainable Development Goals (SDGs) 2030 agenda through a unanimous parliamentary resolution, Pakistan sets a strong example. NFEH wholeheartedly endorses the SDGs, adopted by all United Nations Member States in 2015, with a special focus on Good Health & Well-

- International Earth Day celebrations
- World Environment Day commemorations
- Tree Plantation Campaigns to promote reforestation and greenery
- Clean & Green Environment initiatives to foster a healthier ecosystem
- Key Stakeholders Connect: Collaborations with influential partners to drive environmental change
- Environment Pollution awareness and mitigation efforts
- Beach Cleaning activities to protect marine life and preserve coastal beauty
- Awareness of health and prevention for women and children, SDG,s goals
- Partnership with trade &industrial bodies, NGO,s & Corporate sector for joint efforts

Our regular events

- CSR Summit and Awards
- Annual Environment Conference and Awards
- Fire Safety Convention and Awards
- Tree Plantation in Karachi and other cities
- Women health seminar
- Awareness campaign on environmental issues & civic problems through media and social media

har Foundation is playing a crucial role in transforming the socio-economic landscape of Tharparkar through sustainable development initiatives. From education and healthcare to women empowerment and renewable energy, the Foundation has been instrumental in improving the quality of life for the local communities. In this exclusive interview, Mr. Farhan Ansari, General Manager CSR at Thar Foundation, shares insights on the organization's mission, key projects, and long-term vision for a sustainable Thar.

Q: Can you briefly describe the mission and objectives of Thar Foundation?

A: Thar Foundation is committed to the sustainable development of Tharparkar, addressing fundamental needs such as education, healthcare, livelihood, and environmental conservation.

Our initiatives align with the United Nations Sustainable Development Goals (SDGs), ensuring long-term impact in the region. We believe in empowering local communities by providing access to quality education, better healthcare services, and sustainable livelihood opportunities.

Q: Education is a key focus of Thar Foundation. What are some notable initiatives in this area?

A: Education is at the heart of our efforts. We have established 25 solar-powered schools in Thar, providing free quality education to over 5,000 children. These schools follow the Sindh Education Foundation curriculum and

incorporate STEM education, digital learning tools, and teacher training programs to enhance educational outcomes. A special emphasis is placed on girls' education, with dedicated initiatives to ensure their enrollment and retention.

Q: How is Thar Foundation addressing healthcare challenges in the region?

A: Access to quality healthcare in Tharparkar has always been a challenge due to geographical and infrastructure limitations. To bridge this gap, we operate Marvi Clinics, the Thar Foundation Hospital, and mobile health units, providing free medical checkups, maternal care, and vaccinations to thousands of residents. Additionally, we have introduced telemedicine services to connect patients with specialists, ensuring timely medical interventions.

Q: Women's empowerment is a crucial aspect of sustainable development. How is the Foundation supporting women in Thar?

A: We firmly believe in empowering Thari women through skill development and economic inclusion. Our programs train women in non-traditional roles such as truck driving, RO plant operation, and solar energy maintenance. This not only provides them with employment but also challenges societal norms. Additionally, our women-led handicraft enterprises enable them to earn a stable income and become financially independent.

Q: Thar Foundation has been promoting renewable energy. What are some key projects in this area?

A: As part of our commitment to environmental sustainability, we have introduced solar home systems in 1,735 households, ensuring access to clean energy. Our solar-powered schools and water plants are prime examples of how renewable energy can address

local challenges. These projects not only reduce carbon footprints but also ensure uninterrupted electricity for critical services.

Q: Employment generation is essential for community upliftment. How does Thar Foundation contribute to job creation?

A: Under our Khushal Thar initiative, we prioritize local employment in the Thar coal and energy sector. Today, over 60% of the workforce in our projects comprises Thari locals. We also offer vocational training programs in mining, energy, and safety management, equipping the youth with industry-relevant skills and creating long-term employment opportunities.

Q: What are the key future goals of Thar Foundation?

A: We plan to expand our impact by increasing access to education, healthcare, solar energy, and environmental conservation. Our goal is to make Thar self-sufficient through sustainable projects that

create lasting change. We also aim to introduce innovative solutions for water management, climate resilience, and digital inclusion in rural communities.

Q: How do you envision Thar's future in the coming years?

A: We see Thar as a model for sustainable development, where education, healthcare, renewable energy, and women empowerment drive economic and social progress. By fostering innovation and community participation, we hope to transform Tharparkar into a thriving and self-reliant region, setting an example for sustainable rural development across Pakistan.

Through its wide-ranging initiatives, Thar Foundation is shaping a brighter future for Tharparkar, ensuring that communities have access to education, healthcare, employment, and renewable energy. The efforts led by Mr. Farhan Ansari and his team serve as a blueprint for sustainable growth, proving that strategic social responsibility can create long-term, meaningful change in underserved areas.

OICCI Members Invest Rs14 Billion in CSR Initiatives, Impacting 45 Million Lives

he Overseas Investors
Chamber of Commerce
and Industry (OICCI)
has released its CSR
Report 2024, showcasing
the significant socio-economic
contributions of its member companies
across Pakistan.

In 2024, OICCI members collectively invested Rs14 billion in corporate social responsibility (CSR) initiatives, marking a 13% increase from the previous year. These efforts benefited over 45 million people through projects aligned with the United Nations Sustainable Development Goals (SDGs), focusing on Quality Education (SDG 4), Good Health and Well-Being (SDG 3), Affordable and Clean Energy (SDG 7), and No Poverty (SDG 1).

OICCI President Yousaf Hussain emphasized the chamber's commitment to sustainable development, stating, "True business success goes beyond financial performance to the lasting impact we create in society. This report highlights our members' dedication to uplifting communities, fostering inclusive growth, and building a resilient Pakistan."

The report highlights that over 60% of CSR initiatives were concentrated in urban centers like Sindh and Punjab, while also reaching underserved regions, including Balochistan, Khyber Pakhtunkhwa, Azad Kashmir, and Gilgit-Baltistan.

Key contributions include: Education: Rs3 billion invested, benefiting 436,000 individuals through school construction, scholarships, and digital/vocational training.

Healthcare: Rs2.3 billion allocated, directly benefiting over 25 million people in maternal health, primary care, and mental health awareness.

Renewable Energy: Rs2.6

billion directed towards off-grid solar projects and energy efficiency initiatives, supporting Pakistan's clean energy transition.

Community Upliftment:

Rs1.7 billion dedicated to income generation, food security, and social protection programs for marginalized communities.

OICCI Vice President Syed Ali Akbar noted that public-private collaboration is crucial in addressing Pakistan's social challenges, adding, "Our members set high benchmarks in sustainable business practices through impactful CSR initiatives."

OICCI Secretary General M Abdul Aleem acknowledged the support of over 280 social organizations, stating that these contributions are driving positive change nationwide while inspiring other businesses to invest in societal development.

Towards a Sustainable Pakistan

17th Annual CSR Summit 2025

n an era where sustainability is no longer a choice but a necessity, the 17th Annual CSR Summit 2025 & Sustainable Pakistan Conference is set to bring together industry leaders, policymakers, and changemakers to shape a greener, more resilient future for Pakistan. Organized by the National Forum for Environment & Health (NFEH), this premier event, scheduled for February 18, 2025, at Serena Hotel, Islamabad, will be a platform for innovative discussions and strategic collaborations in corporate social responsibility (CSR).

Uniting for a Greener Tomorrow

Pakistan faces urgent environmental challenges, from climate change to resource depletion. This summit aims to foster corporate accountability, sustainable business practices, and community-driven solutions to mitigate these issues. With esteemed sponsors and stakeholders including Schneider Electric, National Bank of Pakistan, Mari Petroleum, and DP World, the event will highlight how businesses can drive sustainability while achieving economic growth.

Key Themes and Discussions

This year's summit will focus on:

l Renewable Energy & Green Innovations – Encouraging industries to adopt sustainable energy solutions. l Corporate Environmental Responsibility – How businesses can integrate eco-friendly practices into their models. l Sustainable Urban Development – Tackling waste management, pollution control, and smart city planning. l Social Equity & Community Welfare – Ensuring that sustainability efforts benefit marginalized communities.

Shaping Pakistan's CSR Future

The summit will feature insightful panel discussions, keynote speeches, and award recognitions for companies leading in CSR. By sharing success stories and forging new partnerships, the event will inspire action across sectors, ensuring that sustainability is not just an agenda but a national priority.

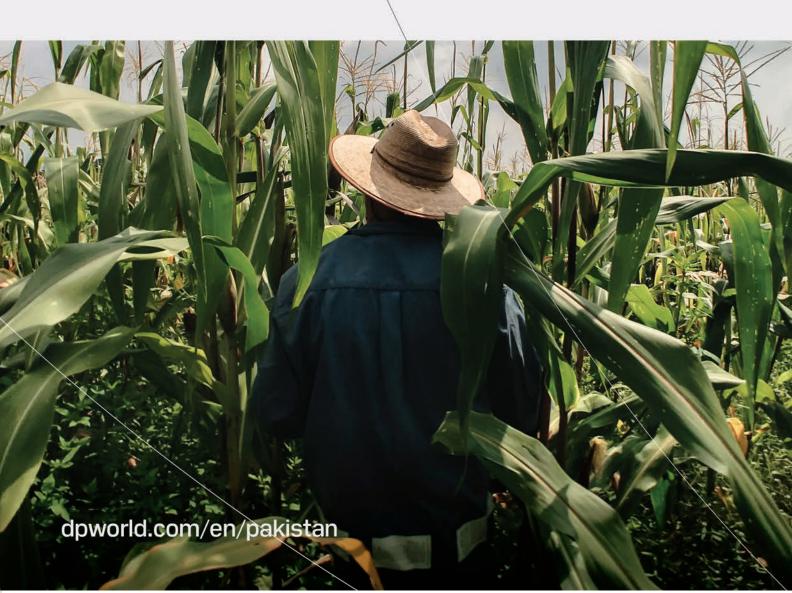

As Pakistan strides towards a greener and more sustainable future, corporate responsibility remains a crucial driver of change. The 17th Annual CSR Summit 2025 is more than just a conference—it is a call to action for businesses and communities to work together in building a cleaner, healthier, and more prosperous Pakistan.

THINKING FORWARD MOVING FURTHER

We are leading the way towards moving cargo, faster, smarter and more sustainably. With a powerful global network and innovation at heart, we believe the future of trade is promising.

Connecting businesses and connecting people, to change what's possible for everyone.

17th CSR Summit & Awards Ceremony

125 awards presented to leading companies

A Group Picture of CSR Award winners with chief guest Fed Minister Qaiser Ahmed Shaikh, President NFEH M. Naeem Qureshi, Project Head Engr. Nadeem Ashraf and Secretary General Ruqiya Naeem

Ruqiya Naeem

ederal Minister Qaiser
Ahmed Sheikh has underscored the importance of regional trade as saying that now it is a right time to focus on promotion of regional trade for progress and prosperity of the country.

This he said while speaking at the 17th Annual Corporate Social Responsibility (CSR) Summit and Awards 2025 ceremony organized in Islamabad. The maritime minister highlighted the global trend of increasing regional trade. He said that despite conflicts between China and Taiwan, substantial regional trade continues between both the counties.

He stressed the need for Pakistan to enhance trade relations with Bangladesh and India as well. Sheikh reaffirmed the government's commitment to steering the country out of the economic crisis. Under the leadership of Prime Minister Shehbaz Sharif, the government has launched the ambitious "Uraan Pakistan" program, aiming to boost trade volume from \$370 billion to \$1 trillion within the next decade. He further stated that all-out efforts are being made to double the country's exports within the next four years. He highlighted key economic improvements.

The minister said the country's

currency had also stabilized while foreign reserves were also increasing day by day.

The 17th Annual Corporate Social Responsibility (CSR) Summit and Awards 2025 was organized by the National Forum for Environment and Health (NFEH). The summit provided a key platform for discussions on corporate philanthropy and social responsibility, bringing together industry leaders, experts, and stakeholders to explore ways to enhance CSR initiatives for underprivileged communities across Pakistan.

The summit honored the outstanding contributions of public and private sector organizations in supporting marginalized communities. A total of 125 awards were presented to representatives

from 73 leading companies in recognition of their exceptional CSR efforts.

Executive Director of the Securities and Exchange Commission of Pakistan (SECP), Musarat Jabeen, highlighted that Pakistan, with a population exceeding 255 million and an annual growth rate of 2.4%, faces numerous challenges, including environmental concerns, health, education, and energy. Musarat urged companies to enhance transparency and actively engage stakeholders in CSR initiatives. She emphasized that CSR is closely linked to ethical and religious values and stressed the need for wellorganized CSR efforts. She also mentioned that Pakistan has already developed a framework for CSR activities, though many initiatives take time to yield results.

A Group Photo was taken with Panelist of Summit on Sustainable Pakistan along with Team NFEH

From R to L Federal Minister Qaiser Ahmed Shaikh, Musarrat Jabeen Executive Director SECP, Naeem Qureshi President NFEH, Kamran Rizvi, Amna Munawar, Bashir Malik, Faizan Sarwar, A. Samad and others addressing at 17th CSR Summit Islamabad

Kamran Rizvi, Co-Founder of Canelian, emphasized that CSR is a crucial tool for making a difference in society. He advocated integrating CSR efforts with core business strategies while prioritizing key social issues.

NFEH President Naeem Qureshi congratulated the award winners, noting that their CSR initiatives have provided significant relief to the general public. He highlighted that the participating companies have collectively planted over 270,000 trees as part of the Green Pakistan initiative. CEO Youth Impact Aftab Hussain, CEO Sundus Foundation Dr Imran Taj, A. Samade, President of EmpowerHer and the Center of Pakistan and International Relations, Amna Munawwar Awan, and CEO of My Impact Meter, discussed their efforts in uplifting marginalized communities

Panel Discussion on Sustainable Pakistan

across the country.

Other distinguished speakers included Tariq Jadoon Vice President of FPCCI, Muhammad Atif Sheikh, a disability and development expert; President Pak USA Alumni Association Saima Amjad; Sana Ajmal, Founder and Executive Director of Meethi Zindagi; Aatekah Mir Khan, Corporate Manager of Policy Development at Nestlé Pakistan;

Faizan Sarwar, Business Development Manager at Schneider Electric; Dr Yogi Wajahat and Bashir Malik, Chairman of Bin Qutub Foundation.

The summit successfully highlighted the critical role of corporate social responsibility in fostering sustainable development and improving the lives of underprivileged communities in Pakistan.

17th CSR Summit & Awards 2025 ceremony (Karachi Edition)

Sindh govt to launch E-commerce platforms for female artisans

Women Development Minister Shaheena Sher Ali says 100 female skilled workers will be trained to use e-commerce services

Ruqiya Naeem

he Sindh government's Women Development Department will soon launch an E-commerce website and smartphone application to enable craftswomen and female artisans of rural and deprived areas of the province to connect with prospective buyers in the international market.

This was stated by her while speaking as the chief guest at the 17th CSR Summit & Awards 2025 ceremony organized by the National Forum for Environment & Health (NFEH). The women development minister told the audience that 100 female skilled workers from every district in Sindh would soon be properly trained to use e-commerce services for their connectivity with foreign markets.

Sindh Minister for Women Development Shaheen Sher Ali addressing at 17th CSR Summit Karachi Edition at Local Hotel.

She said that the female artisans from rural areas using the e-commerce tools would directly sell their products to prospective buyers in and outside the country for maximum financial gain without the involvement of middlemen.

Shaheena said the provincial women's development department would organize training sessions to help rural female artisans upgrade their skills as per the latest global requirements and also help them extend their outreach to the

Minister for Women Development Shaheena Sher Ali, M. Ghazzal, Abu Bakar Ismail, M. Naeem Qureshi, Yogi Wajahat, Ruqiya Naeem, Brig R Lakhair, Faryal Asif, MNA Ahmed Saleem Siddiqui and Engr. Nadeem Ashraf addressing at 17th CSR Summit Karachi Edition.

international markets. The minister said that smartphones should be used as an effective marketing tool by skilled men and women from low and middle-income groups to launch their businesses.

She said: "The COVID-19 lockdowns have proved that smartphones are effective tools the world over for accessing online education and e-commerce platforms.

Speaking as the guest of honor, MNA Ahmed Saleem Siddiqui urged the audience to stay connected with the elected public representatives of their constituencies to adopt an effective mechanism to resolve basic civic issues in urban areas.

He disclosed that the federal government had approved the release of funds to the MNAs, which would be utilized to undertake much-needed development works in Karachi and Hyderabad. He informed the audience that the release of these development funds was a longstanding demand of the concerned parliamentarians from the two main urban centres of Sindh.

CEO of Sindh Integrated Emergency & Health Services (SIEHS), Brig (retired) Tarique Quadir Lakhiar, told

Group Photo of award winners of 17th CSR Summit Karachi Edition with Chief Guest Minister Women Development Sindh Shaheena Sher Ali

the audience at the event that Rescue 1122 service had been operational in Sindh with 461 ambulances. He said the fleet of emergency service vehicles for the entire province would soon be expanded to 640 ambulances. He said that Rescue 1122 ambulances were equipped with 29 lifesaving equipment. Brig (retired) Lakhiar said that 110 of these ambulances had a highly expensive facility of ventilators. He said that the Rescue 1122 service in Punjab carried up to 14 life-saving equipment. He said the SIEHS would soon launch a boat-based ambulance service to protect fishermen

from Sindh's coast who went into the sea for fishing.

Chief Operating Officer of Saylani Welfare International Trust, Muhammad Ghazzal, informed the audience that earlier Saylani Trust had partnered with the Thar Foundation to impart the latest IT training to Thari students, enabling them to earn in dollars through freelance work in the international market. He said the mass IT education program of Saylani Trust had been producing 30,000 graduates annually who possessed the latest software skills required by global tech companies.

Faryal Asif of Al-Furqan Welfare Organisation informed the audience that her non-profit organization had recently signed an agreement with the Korangi Association of Trade & Industry to set up charitable schools for children of deprived industrial workers.

NFEH President Naeem Qureshi emphasized that the government should enhance its partnership with the concerned private sector organizations, donors, and philanthropists to secure Sustainable Development Goals in Pakistan in the shortest possible time.

NFEH Secretary General Ruqiya Naeem and Vice-President Nadeem Asraf also spoke and praised the philanthropic work carried out by the private sector.

ABBOTT

Abbott has been operating in Pakistan for over 70

Abbott

years, to enable people to live fuller, healthier lives through its life-changing technologies and products. At Abbott, we believe a sustainable future starts with health. Good health is the foundation for everything and helps people and communities to thrive. As outlined in our 2030 Sustainability Plan, our priority is to reach more people, in more places than ever before, with access and affordability in mind for our life-changing technologies and products. And we work within our businesses and in partnership with others to remove barriers that prevent people from accessing the care they need to live their healthiest lives.

CSR Activities: Abbott has a long history of partnerships with leading nonprofit organizations to help expand access to critical health and social services, with the goal of building more resilient, healthier communities.

ALBARIO ENGINEERING (PVT) LTD

Albario Engineering (Pvt) Ltd. was established in Lahore Pakistan and working as a

one window solution provider in the fields of Energy, Industrial Solutions and Infrastructure. The group excels in diversified business activities ranging from Engineering, Procurement & Construction (EPC), Electromechanical Contracting, Civil Construction, Operations & Maintenance, Outages / Turnarounds, Rehabilitation Services, Real Estate Infrastructure Development, Consulting & Technical Trainings, Gas Engine Spares & Services, Solar & EV Charging Solutions and Manufacturing of Transformers.

AL-HAJ ENTERPRISES (PRIVATE) LIMITED

EMERGING E&P COMPANY IN OIL & GAS ENTREPRENEUR

Al-Haj Enterprises (Pvt)
Ltd. is now emerging as E
& P Company in Oil & Gas
industry and recently has
been awarded two Exploration
Licenses by Government
of Pakistan for two Blocks:

POTWAR-SOUTH (Punjab) & BASKA-NORTH (KPK) and has launched its Exploration activities in both these Blocks. POTWAR-SOUTH BLOCK: Exists in Punjab Province closer to Islamabad & carries good Hydrocarbon Potential as there are numerous Lucrative Oil & Gas Discoveries e.g. Dhurnal , Myal , Khor Oil Fields in its close proximity.

BASKA-NORTH BLOCK: Exists in KPK Province near D.I Khan City. There are substantial Gas Discoveries in KPK province e.g. MANZALAI, MELA, CHANDA & many other Gas Fields.

AEPL will render all out efforts to discover latent Hydrocarbon Potential in both these Blocks with state of the art Technology & diligent & experienced Professionals & of course with heavy investment to deliver & contribute in the endeavor of searching Oil & Gas Potential for Prosperous Pakistan.

AEPL had discovered oil and gas reserves at 92 Kot Palak-1 well in Baska North located in Dera Ismail Khan District of Khyber Pakhtunkhwa. The well was drilled to a depth of 3,527 meters and as a consequence of the drilling, prospective hydrocarbon bearing zones were detected, indicating reserves of 1,840 barrels of condensate, and 39.12 million standard cubic feet of gas per day.

ALLIED BANK LIMITED

Allied Bank Limited owes its existence to Australasia

Bank, commenced its operations before independence in 1942; merged with three other banks (Sarhad Bank Limited, Lahore Commercial Bank Limited and Pak Bank Limited) upon nationalization in 1974 with the name changed to Allied Bank of Pakistan Limited; recapitalized in 2004 by Ibrahim Group and renamed as Allied Bank Limited in 2005. Its over 7 decades journey is worth-emulation saga of resilience against odds and obstacles. ABL serves with an outreach of 1,429 branches. With 1,427 domestic branches including 1,303 conventional branches, 117 Islamic branches and 7 digital branches along with 110 Islamic Windows. Overseas presence via 2 foreign branches in Bahrain and Karachi Export Zone and 2 Representative offices located in China (Beijing) and UAE-Dubai. The Bank is among the league of select few, which have been awarded highest long-term and short-term entity credit ratings of AAA (Triple A) and A1+ (A One Plus) respectively. The Bank has been assigned CGR-9++ (Corporate Governance Rating) by VIS Credit Rating Company Limited, indicating "very high level of corporate governance". Allied Bank Limited being a socially responsible citizen remains committed towards Corporate Social Responsibility which forms an integral part of the Bank's long-term strategy.

BESTWAY CEMENT LIMITED

In line with its diversification strategy, the Group identified the cement sector in Pakistan as an opportunity and subsequently set up the group's first cement plant in Hattar, Pakistan, with an annual production

capacity of 1.1 million tonnes in 1995. With an initial investment of US\$120 million, civil works on the group's first cement plant commenced in 1996 and the kiln was fired two years later. BCL Hattar was established in industry record-breaking time of 24 months. This was a greenfield project and the plant was set up in an economically deprived area of Hattar, in the KP Province of Pakistan. Bestway's investment led to the creation of over 800 direct jobs and the area's economic development. In February 2004, anticipating a period of resurgent demand in the domestic market, it was decided to expand BCL's operations through setting up its second greenfield plant with an annual capacity of 1.8 million tonnes. The plant was set up in Chakwal in the Province of Punjab, Pakistan at a total investment of US\$140 million in another recordbreaking period of 19 months. Bestway's investment in one of the most underdeveloped areas of Central Punjab led to the creation of 900 jobs for the local community.

ATLAS HONDA LIMITED

Atlas Honda Limited is a public limited company listed on the Pakistan Stock Exchange. It is a joint venture between Shirazi Investments (Private) Limited (SIL) and Honda Motor Company Limited, with SIL holding 52.43% of issued, subscribed and paid-

up capital as on March 31, 2024. The registered office of the Company is located in Lahore whereas its manufacturing and assembly facilities are located in Karachi and Sheikhupura with branches, customer care centers, warranty and training centers and other offices located in Karachi, Hyderabad, Multan, Lahore, Faisalabad, Rahim Yar Khan and Islamabad. The Company operates in Pakistan but also exports to countries like and is engaged in manufacturing and marketing of motorcycles in the categories of 70cc, 100cc, 125cc and 150cc, spare parts and engine oil to the customers that mainly include dealers and institutions, through a nation-wide network of dealers. During the year ended March 31, 2024, net sales of the Company amounted to Rs. 159.2 billion, with sales of more than Nine Hundred and Fifty Thousand Motorcycles. Net profit for the year amounted to Rs. 9.7 billion with total assets amounting to Rs. 75.9 billion and equity of Rs. 28.7 billion, as at the said date. The workforce of the Company comprised 2,732 permanent employees as on 31 March, 2024.

BANK ALFALAH

Bank Alfalah's Contribution to a Sustainable Way Forward

Flood Relief and Rehabilitation Efforts: A Two-Year Commitment

Bank Alfalah

Bank Alfalah has disbursed PKR 2.21 billion over two years to support flood-affected communities in Pakistan following the devastating 2022 floods. The Bank adopted a two-pronged approach: immediate relief and long-term rehabilitation, led by Chairman His Excellency Sheikh Nahayan Mabarak Al Nahayan and the Board's gracious funding of \$10 million, which impacted around 10 million in Pakistan.

Key Interventions:

- Healthcare: Funded PKR 633.5 million for initiatives like establishing medical camps, mobile health services, and eye care programmes through partnerships with Aga Khan Foundation, Patient Aid Foundation, Indus Hospital, LRBT, ChildLife Foundation and so on.
- Sustainable Housing: Disbursed PKR 376.8 million for constructing over 1,066 houses and supporting livelihood initiatives through partnerships with Akhuwat, Karachi Relief Trust, and Bait-us-Salam.
- Education: Invested PKR 305 million in rebuilding schools, supporting students, and establishing educational centres in partnership with The Citizen Foundation, Deaf Reach, and other sustainability partners.
- Livelihood Support: Offered interest-free loans through Akhuwat Islamic Microfinance to construct 1,382 houses and launched the 'Revive & Rise' programme with subsidised loans for small businesses, benefiting over 700 individuals. Bank Alfalah's commitment extends beyond financial assistance. The Bank has partnered with over 25 esteemed organisations to ensure sustainable and impactful recovery for flood-affected communities across Pakistan.

CENTURY PAPER & BOARD MILLS (CPBM)

Century Paper & Board Mills (CPBM) started its commercial production in 1990 with Three Paper Machines (PMs) with an installed capacity of 30,000

TPY. Till 2008, Century gradually increased its production capacity to 288,000 TPY with Seven Machines (PMs) in operations. In 2003 Company also entered into the manufacturing of quality Corrugated Cartons business line with a current installed capacity of 40,000 TPY.

The company has two Pulp Lines to process wheat straw and other agricultural residues to produce Bleached and Unbleached Virgin Indigenous Pulps. The chemicals required for pulp mills are produced mainly at mill sites. Given the energy constraints, the company developed a very comprehensive power generation backup apart from the load available from the national grid to meet the Energy requirements of the plant with multiple options to use Natural Gas, Biomass, Coal, Furnace Oil or High-Speed Diesel, which is supporting most viable and continuous operations of the company to strengthen its position as the most reliable source of supply to its valued customers chain. Crown Group is the realization of a young mind's dream, brought to life in 2002. Mr. Farhan Hanif developed an understanding that the real essence of business was the maintenance of transparent accounting systems. Furthermore, he learned the concept of ethical business practices and developed an aversion to interest-based dealings, a principle which

Mr. Farhan strictly followed in all stages of his career progression. He was inspired by his maternal grandfather's business of importing scooter spare parts from Italy since 1963. As a young man, Mr. Farhan delved into this business, starting from the basics to learn the 'ins and outs' of trade. Observing and following the development of the Chinese market for automotive and parts, he launched his own business in 2002 by being the first in Pakistan to grab hold of this opportunity, and in 2003, he made an exclusive rights agreement with Lifan Group, China. This marked the beginning of motorcycle spare parts import, which were competitive in price and an excellent quality substitute for Japanese parts. Going forward, the sky was the limit and Crown Group grew year after year, exploring, manufacturing and introducing new products to the Pakistani market.

CNERGYICO PK LIMITED

Cnergyico Pk Limited, formerly Byco Petroleum Pakistan Limited, is Pakistan's largest oil refining company, with the nation's highest refining design capacity of 156,000 barrels per day. Incorporated as a refining company in 1995, the Company has since transformed immensely. Starting from a mere

Chergyico

30,000 bbl/day to currently 156,000 bbl/day. In response to the changing business environment, the Company has embarked upon a new journey: to further modernize its refining infrastructure to diversify its business, catering to tomorrow's petrochemical and energy requirements of the nation. We aim to create synergy in the energy vertical, leveraging our strengths and adapting to new forms of energy that are developing both locally and globally. To commemorate this diversification and expansion reflecting our new position in the industry, we have rebranded ourselves as Cnergyico Pk Limited. Currently engaged in the businesses of oil refining, petroleum, and lubricants marketing, Cnergyico has become a leader in Pakistan's energy sector, producing a wide range of refined petroleum products, including LPG, Motor Gasoline, Kerosene, Jet Fuels, High-speed Diesel, and Furnace Oil. The company's vision is to achieve sustainable productivity and deliver shareholder return while upholding high environmental, health, and safety standards. Cnergyico's Founder, Mr. Pervez Abbasi, established Bosicor (later renamed Cnergyico) in 1995 to help make Pakistan self-sufficient in energy production.

commenced Textile Operations in 1953 as a Private Limited Company and transitioned into a Public Limited Company in 1968. In pursuit of sustainable growth, the Company has strategically embraced a policy of horizontal integration encompassing weaving, processing, and home textiles activities with the aim of addressing the dynamic challenges posed by market. At present, the Company's spinning production facilities comprise 180,144 ring spindles, 384 MVS Spindles (another 384 MVS spindles will be installed by the end of September 2023), 2,712 open end rotors (another 936 rotors installed subsequent to year-end) capable of spinning a diverse range of yarn counts using cotton and synthetic fbers in Rawalpindi and Gujjar Khan along with 384 looms at Raiwind capable of weaving a wide range of greige fabrics. The processing facilities at the Rawalpindi unit are capable of dyeing and printing fabrics intended for the home textile market. The stitching facilities contribute to the production of a diverse range of home textiles for export. Both the dyeing and stitching facilities are being augmented to take advantage of greater market access. Moreover, all three sites are fully equipped laboratory facilities for quality control and process optimization.

LOTTE CHEMICAL PAKISTAN LTD.

LCPL stands strong as the only world-class manufacturer and supplier of Purified

Terephthalic Acid (PTA) in Pakistan with a capacity to deliver 500,000 tonnes of PTA annually through its state-of-the-art plant situated at Port Qasim, Karachi. PTA is the primary raw material for producing Polyester fiber, Polyester filament yarn, Polyester film and Polyethylene Terephthalate (PET). LCPL holds the foundation of the polyester chain in Pakistan and retains its edge by being a local producer and key supplier for the domestic Polyester and PET industries with short delivery, world class quality and exceptional customer service. For producing PTA we import our feedstock (Paraxylene) from reputable suppliers based in Asia and Middle-East region. Our plant operates under a technology license with IPT (Investa Performance Technologies) which is currently the leading global supplier of PTA technology. LCPL has also enabled expansive infrastructure development in Port Qasim area including Chemical Jetty, raw water pipeline and production of industrial gasses through third party contracts. This has started a new trend in industrial investments in Pakistan. Besides enabling significant growth in downstream industries LCPL operations provide significant foreign exchange savings in excess of USD 100 million annually for the country.

MARTIN DOW

Martin Dow Ltd. is committed to embracing and promoting Diversity, Equity, and Inclusion (DEI) values across all facets of

its operations. The company actively supports, invests in, and advocates for DEI-related initiatives within the community, government, and society at large. Through these efforts, Martin Dow Ltd. demonstrates its dedication to fostering a more inclusive environment, ensuring equal opportunities, and championing the rights and voices of underrepresented groups. Martin Dow has established strict criteria to ensure that philanthropic aid is distributed fairly and only to those who deserve it. The company operates in three key areas: health, education, and environment, and provides ongoing support to the communities in which it operates. To ensure that aid is distributed fairly, Martin Dow has refined its criteria to focus on; diversity, disability, remoteness, underprivileged communities and quality and transparency of the work done by NGOs.

These benchmarks help to mitigate any potential biases and ensure that aid is distributed impartially. These are just a few examples of Martin Dow's extensive CSR initiatives, and the company plans to continue expanding its efforts and setting an example for others to follow.

NESTLÉ PAKISTAN

Nestlé Pakistan has been transforming traditional dairy farmers into professionals. We have been playing a pivotal role in contributing to the agricultural economy through dairy development. We are

committed to continue Creating Shared Value by empowering our local farmers and meeting our commitments, in line with the United Nations Sustainable Development Goals (UN SDGs). Our global focus areas are firmly embedded in our purpose. Individuals and families, our communities and the planet as a whole are interconnected, and our efforts in each of these areas are supported through our 42 public commitments.

These commitments will, in turn, enable us to meet our global ambitions for 2030 in line with the timescale of the Sustainable Development Goals (SDGs) through key partnerships and initiatives.

Nestlé Pakistan won the First Prize for 'Living the Global Compact Best Practices Sustainability Award 2019', in the category of multinational companies and declared a Sustainable Development Goal (SDG) Champion by the UN Global Compact Network Pakistan. This award is an acknowledgment to our continuous commitment towards contributing to a healthier future in line with SDGs and the ten principles of the UN Global Compact embedded in the way it conducts business.

OIL & GAS DEVELOPMENT COMPANY LIMITED

OGDCL's under a forwardlooking management foresees the organization as not only the leading E&P Company of the country, but also as a company known for its people, partnerships and performance in the region. The Company continued with its strategies of accelerating oil and gas exploration, adding to its reserves, early development of newly discovered fields and strengthening of its oil and gas production base in order to enhance indigenous production of the country and create value for its shareholders. It has grown into a technically feasible and commercially viable organization and developed a highly qualified pool of professionals who can undertake and supervise almost all phases of oil and gas exploration and production starting from preliminary geological surveys and culminating in the operation of oil and gas processing plants. In order to execute the exploratory and development programmes, OGDCL has also developed a sound equipment and operational base which includes drilling rigs, Workover rigs, Geological Field Party, Seismic parties, Engineering Field Parties, Gas Gathering and Pipeline Construction Party, Seismic Data Processing Centre, Geological Analysis Laboratory, Wireline Logging Unit, Cementing Units and Data Logging Unit.

Our purpose is to empower all to make the most of our energy and resources bridging progress and sustainability for all

At Schneider, we call this Life Is On

The Access to Energy program

seeks to ensure Access to affordable, reliable, sustainable and modern Energy impacting all people around the planet.

Two main goals having an impact...

... on six other objectives.

Why it matters?

A well-established energy system supporting all domains:

healthcare, education, livelihood incl. agriculture, communications and infrastructure.

Our program targets 6 main energy domain for better lives

Heath

safe lighting, medicine storage, health services, mental & physical health of energy poor populations

Communities

rural electrification, public and private lighting, electrical safety of energy poor houses

Education

better working conditions at school and at home. education and equipment for fighting energy poverty

Agriculture

irrigation, improved agriculture productivity

Gender equality

support for womenentrepreneurs, training for women, energy for women empowerment

Emergency

energy access in time of crisis, or for displaced people

REHMAN FOUNDATION

For the past two decades, the Rehman Foundation has been dedicated to providing free dialysis services in key cities across Pakistan, including Lahore, Karachi, Jhelum, Islamabad, Faisalabad, Sialkot, Painsra, and Sarai Alamgir. As a non-governmental and non-profit organization, we are committed to improving access to essential medical treatments for those in need. The prevalence of chronic renal failure in Pakistan is a growing concern, with 26 million people currently suffering from kidney problems, according to a survey by Dawn News. The World Health Organization has identified Pakistan as one of the top ten countries where the progression of renal diseases is occurring at a relatively higher pace. Compounding the issue, over 80% of affected individuals come from a poor financial background and lack the resources to undergo necessary tests for the disease. Rehman Foundation, by the grace of God, currently provides over 3,000 free dialysis treatments per month across eight dialysis centers, equipped with 60 dialysis machines. As part of our ongoing efforts to expand our services, we are in urgent need of 20 additional dialysis machines to upgrade our existing facilities. Our goal is to extend free dialysis services to more patients in need of life-saving treatment.

Roots School System RSS is a model private sector educational institution styled on the modern educational system of international standards, specially designed to meet the requirement of the students

to meet the challenges by involving the three E's approach EXPOSURE - EXPANSION - EXPLORATION. Services (SIEHS) is a not-for-profit organization committed to transforming pre-hospital emergency care across Sindh. Established in collaboration with the Government of Sindh, SIEHS operates with a singular mission—to provide accessible, life-saving healthcare anytime, anywhere, in all 30 districts of Sindh. With a fleet of 461+ ambulances, rapid response and mountainbikes, and mortuary vans, we ensure 100% coverage across the province, delivering 24/7 free emergency services via 1122. Our ambulances are equipped with state-of-the-art medical technology, including AED machines, ventilators, and cardiac monitors, ensuring that every patient receives critical care when it matters most. Beyond emergency response, Tele-Tabeeb (1123) offers round-the-clock telemedicine, providing medical, mental health, and family planning consultations bridging healthcare gaps, all across Pakistan Our Research, Development & Education (RDE) department enhances emergency response capacity through specialized training, having trained 3,638+ emergency responders to date. At SIEHS, we are more than just an ambulance service. We are a lifeline, a beacon of hope, and a commitment to care beyond hospital walls because every second counts, and every life matters.

SINDH SOLAR ENERGY PROJECT

The Sindh Solar Energy Project (SSEP) is a \$100 million project funded by the World Bank

The project aims to

increase solar power generation and access to electricity in Sindh Province, Pakistan.
The SSEP has four components:

Component-I (Utility Scale Solar):

The 400 MW grid-connected solar power project will be developed through competitive bidding. The RFP (Request for Proposal) document for the 50 MW Solar Power Project has been sent to NEPRA (National Electric Power Regulatory Authority) for approval. NEPRA held a public hearing on the RFP in January 2023, but a decision is still awaited. The PQD (Preliminary Qualification Process) for the 50 MW Manjhand and 350 MW Karachi sites has been completed. The RFP document 114. for the remaining 350 MW has been submitted by KE to NEPRA for approval. Once the RFPs for all sites are approved, the bidding process will begin.

Component-II (Distributed Solar):

This component will install 50 MW of rooftop solar power on public sector buildings. As part of a COVID-19 emergency project, 33 government hospitals have been selected for solarization (up to 21MW), and 31 of these sites have been completed.

Component-III (Solar Home System):

This component will provide 200,000 households in Sindh with solar home systems (SHSs).

Thar Foundation is a non-profit organization

dedicated to fostering sustainable development and enhancing the quality of life for communities in Tharparkar, Pakistan. Established under the Companies Act of 2017 as a Section 42 entity, the foundation is committed to advancing the Sustainable Development Goals (SDGs) through inclusive and impactful initiatives. With a vision to transform Tharparkar into a model for socioeconomic growth, the foundation focuses on critical areas such as education, healthcare, access to clean water and sanitation, women's empowerment, and economic development. It has made significant strides in providing quality education, with a special emphasis on encouraging female participation. Its healthcare programs ensure communities have access to modern medical facilities and essential health services. The foundation is also a pioneer in environmental sustainability, introducing innovative solutions such as solar-powered electrification to improve living standards in rural areas. Through skill development, vocational training, and employment programs, it empowers local communities to achieve long-term self-reliance and economic stability. Guided by its core principles of inclusivity and equity, Thar Foundation remains steadfast in its mission to build a brighter, more resilient future for the people of Tharparkar, ensuring lasting progress for generations to come.

WAH INDUSTRIES LIMITED

Wah Industries Limited (WIL) was established in 1958 as a Pakistan Ordnance Factories (POF) commercial subsidiary.

WIL was incorporated as a Public Limited Company under the Companies Ordinance, and it acts as the sole selling agent for POF in the domestic market in Pakistan. With its commercialization endeavors, WIL has emerged as a national leader in commercial activities with expanding international business operations particularly in defense-related products and generally in commercial and trading activities.

WILSHIRE LABS

Wilshire labs is committed to execute its corporate social responsibility (CSR). In the commitment Wilshire labs is goings towards the Green Initiatives. In this process the

Sign of Health & Care

Wilshire had successfully managed the following programs.

- 1. Installation of commercial solar plates
- 2. Installation of Waste water treatment plant
- 3. Plantation of trees and landscaping Installation of commercial solar plates: Wilshire total average consumption of electricity is 900 kilo watts, Top management decided to reduce the consumption of electricity by using inverting and energy saving electrical appliance and also budgeted the amount of alternative energy resources such as solar system. Currently, Wilshire installed solar energy system having the capacity of 268 kilo watts. Which is saving the cost of energy and minimizing the environmental impact. Management has also implemented the energy efficient policy.

Installation of Waste water treatment plant: In the continuation of green energy initiatives, Wilshire management installed effluent treatment plant of all wastes generated from its production areas. Recently, new technological approach is adopted in which tertiary treatment of waste is replaced with the ozone treatment. In which the chemical usage is obsolete and ozone production of is installed.

Plantation of trees and landscaping: Wilshire management is committed to maintain the environment in green ways.
